On this episode of **ID the Future** Casey Luskin interviews Dr. William Dembski on his new peer-reviewed paper, "Conservation of Information in Search: Measuring the Cost of Success," published in *IEEE Transactions on Systems, Man and Cybernetics A, Systems & Humans*. Listen in as Dr. Dembski shares how his research provides accounting practices for checking out where the information in evolutionary processes is being inserted and expressed, thus holding evolutionists accountable to the fact that information is coming from an outside source. For more information, read the paper at EvolInfo.org.
